Banking Law - Andreas Kokkinis 2021-03-16

Banking regulation and the private law governing the bank-customer relationship came under the spotlight as a result of the global financial crisis of 2007–2009. More than a decade later UK, EU and international regulatory initiatives have transformed the structure, business practices, financing models and governance of the banking sector. This authoritative text offers an in-depth analysis of modern banking law and regulation, while providing an assessment of its effectiveness and normative underpinnings. Its main focus is on UK law and practice, but where necessary it delves into EU law and institutions, such as the European Banking Union and supervisory role of the European Central Bank. The book also covers the regulation of bank corporate governance and executive remuneration, the promises and perils of FinTech and RegTech, and the impact of Brexit on UK financial services. Although detailed, the text remains easy to read and reasonably short; pedagogic features such as a glossary of terms and practice questions for each chapter are intended to facilitate learning. It is a useful resource for students and scholars of banking law and regulation, as well as for regulators and other professionals who are interested in reading a precise and evaluative account of this evolving area of law.

Marital Rights - Robert Leckey 2017-07-05

This volume gathers influential and cutting-edge scholarship on the international and domestic rights attaching to married couples and other adult relationships. Addressing examples from the European Court of Human Rights, UK, USA, Canada, Australia and South Africa, it traces contentious debates about the content of marital rights and responsibilities and whether law should reach beyond marriage, and if so how. Twenty-four essays and a substantial introduction highlight the complexity and contradictions as marital law grapples with gender equality, the aftermath of recognizing gay and lesbian rights, abiding economic inequalities, and 'exotic' issues such as forced marriage and polygamy.

A Socio-Legal Research & Citation Methods - Dr. Sanjay J. Ambekar 2020-08-23

In this book, all primary research scope and dimensions are considered, which will help the researcher have a self-evaluation of the work he/she is carrying out. This book focuses on each possible way of research steps – beginning from problem identification to report generation. This book has eight chapters. Chapter I deal with Research Methodology: An Introduction it has included especially the values and ethics in social research through it the students and the researcher would get knowledge about the ethical manners of research. Chapter II deals with Research Methods under it exclusively focus on the utility of socio-legal research and the relevance of empirical research. Chapter III deals with the Identification of Research Problem; it has covered criteria of research problem, evaluation of research problem, survey of available literature, and bibliography research through point researcher can understand how literature review helpful in accomplishing the research work? Purpose of the literature review, what types of legislative material can refer by the researcher? How is the juristic writing vital in the socio-legal research? Chapter IV deals with the Hypothesis. Chapter V deals with the Preparation of the research design under this chapter. I have tried to discuss devising tools and techniques for collecting data with the help of juristic literature, the use of historical and comparative research materials, observation studies, and questionnaires, jurimetrics, computerized research, etc. Chapter VI deals with the classification and tabulation of data. Chapter VII deals with Report writing. Chapter VIII deals with Legal citation methods; it is the exclusive chapter in this book because there is no need for the researcher to refer another text for Standard Indian legal citation style. It is well-organized book deals with a variety of research methods used in legal and social sciences. A Handbook of "A Socio-legal research & citation methods" is recommended for researchers and useful during Ph. D Course Work.

Teaching Legal Research - Barbara Bintliff 2013-09-13

Legal research is a fundamental skill for all law students and attorneys. Regardless of practice area or work venue, knowledge of the sources and processes of legal research underpins the legal professional's work. Academic law librarians, as research experts, are uniquely qualified to teach legal research. Whether participating in the mandatory, first-year law school curriculum or offering advanced or specialized legal research instruction, law librarians have the up-to-date knowledge, the broad view of the field, and the expertise to provide the best legal research instruction possible. This collection offers both theoretical and practical guidance on legal research education from the perspectives of the law librarian. Containing well-reasoned, analytical articles on the topic, the volume explains and supports the law librarian's role in legal research instruction. The contributors to this book, all experts in teaching legal research, challenge academic law librarians to seize their instructional role in the legal academy. This book was based on a special issue of Legal Reference Services Quarterly.

The latest book from Cengage Learning on Foundations of Legal Research and Writing, International Edition

Model Codes for Post-conflict Criminal Justice - Vivienne M. O'Connor 2007

Accompanying CD-ROMs contains the text of vol. 1. and vol. 2.

Empirical Legal Research - Frans L. Leeuw 2016-03-25

Empirical Legal Research describes how to investigate the roles of legislation, regulation, legal policies and other legal arrangements at play in society. It is invaluable as a guide to legal scholars, practitioners and students on how to do empirical legal research, covering history, methods, evidence, growth of knowledge and links with normativity. This multidisciplinary approach combines insights and approaches from different social sciences, evaluation studies, Big Data analytics and empirically informed ethics. The authors present an overview of the roots of this blossoming interdisciplinary domain, going back to legal realism, the fields of law, economics and the social sciences, and also to civilology and evaluation studies. The book addresses not only data analysis and statistics, but also how to formulate adequate research problems, to use (and test) different types of theories (explanatory and intervention theories) and to apply new forms of literature research to the field of law such as the systematic, rapid and realist reviews and synthesis studies. The choice and architecture of research designs, the collection of data, including Big Data, and how to analyze and visualize data are also covered. The book discusses the tensions between the normative character of law and legal issues and the descriptive and causal character of empirical legal research, and suggests ways to help handle this seeming disconnect. This comprehensive guide is vital reading for law practitioners as well as for students and researchers dealing with regulation, legislation and other legal arrangements.

The Interpretation and Uniformity of the UNCITRAL Model Law on International Commercial Arbitration - Dean Lewis 2016-03-22

Numerous jurisdictions worldwide have augmented their ratification of the New York Convention of 1958 with the UNCITRAL Model Law 1985 (UML), which takes a giant step forward toward global uniformity in legal application and understanding of the arbitration process. This book develops a standard or benchmark for the UML objective of uniformity, using the relevant legislation and case law of Hong Kong, Singapore, and Australia to consider whether a uniform approach to implementation of the UML and its interpretation is being achieved across those jurisdictions. The author's methodological tools are eminently adaptable to other jurisdictions. Given the importance of the ability to set aside an arbitral award, the body of case law on setting aside and the directly related area of enforcement, the emphasis throughout is on Article 34. In addition, the study considers: - the meaning of uniformity in law and in the context of the UML; - the correct approach to interpretation of the UML pre and post Article 2A; - the interpretational relationship between the UML and the Convention on Contracts for the International Sale of Goods (CISG); - the relationship between the UML and the New York Convention; - the degree of textual uniformity of Article 34 with the three jurisdictions focused on; and - the degree of applied uniformity of Article 34 both in terms of juristic methodology and similarity of results. The author, with more than thirty years of practice in the field of commercial arbitration in Hong Kong, has had access to voluminous cases spanning decades and brings his specialist expertise to the subject. This book considers whether the UML has succeeded in its aim of

achieving uniformity. It serves as a guide, both academic and practical, to exploring and adopting the correct approach to the interpretation of the UML as well as to the method of classification of court decisions under the UML. This study is of immeasurable academic and practical value.

Rebel Law - Frank Ledwidge 2017-05-15

In most societies, courts are where the rubber of government meets the road of the people. If a state cannot settle disputes and ensure that its decisions are carried out, for practical purposes it is no longer in charge. This is why successful rebels put courts and justice at the top of their agendas. Rebel Law examines this key weapon in the armory of insurgent groups, ranging from the Ireland of the 1920s, where the IRA sapped British power using 'Republican Tribunals' to today's 'Caliphate of Law' - the Islamic State, by way of Algeria in the 1950s and the Afghan Taliban. Frank Ledwidge tells how insurgent courts bleed legitimacy from government, decide cases and enforce judgments on the battlefield itself. Astute counterinsurgents, especially in "ungoverned space," can ensure that they retain the initiative. The book describes French, Turkish and British colonial "judicial strategy" and contrasts their experience with the chaos of more recent "stabilization operations" in Iraq and Afghanistan, drawing lessons for contemporary counterinsurgents. Rebel Law builds on his insights and shows that the courts themselves can be used as weapons for both sides in highly unconventional warfare.

Maudsley & Burn's Land Law - Edward Hector Burn 2009

Providing students with all the material they are likely to need on land law this edition takes account of new developments, in particular the Landlord and Tenant (Covenants) Act 1995 and the Trusts of Land and Appointment of Trustees Act 1996.

International Organizations and the Idea of Autonomy - Richard Collins

2011-04-20

International Organizations and the Idea of Autonomy is an exploratory text looking at the idea of intergovernmental organizations as autonomous international actors. In the context of concerns over the accountability of powerful international actors exercising increasing levels of legal and political authority, in areas as diverse as education, health, financial markets and international security, the book comes at a crucial time. Including contributions from leading scholars in the fields of international law, politics and governance, it addresses themes of institutional autonomy in international law and governance from a range of theoretical and subject-specific contexts. The collection looks internally at aspects of the institutional law of international organizations and the workings of specific regimes and institutions, as well as externally at the proliferation of autonomous organizations in the international legal order as a whole. Although primarily a legal text, the book takes a broad, thematic and inter-disciplinary approach. In this respect, International Organizations and the Idea of Autonomy offers an excellent resource for both practitioners and students undertaking courses of advanced study in international law, the law of international organizations, global governance, as well as aspects of international relations and organization.

Methodologies of Legal Research - Mark Van Hoecke 2011-02-28

Until quite recently questions about methodology in legal research have been largely confined to understanding the role of doctrinal research as a scholarly discipline. In turn this has involved asking questions not only about coverage but, fundamentally, questions about the identity of the discipline. Is it (mainly) descriptive, hermeneutical, or normative? Should it also be explanatory? Legal scholarship has been torn between, on the one hand, grasping the expanding reality of law and its context, and, on the other, reducing this complex whole to manageable proportions. The purely internal analysis of a legal system, isolated from any societal context, remains an option, and is still seen in the approach of the French academy, but as law aims at ordering society and influencing human behaviour, this approach is felt by many scholars to be insufficient. Consequently many attempts have been made to conceive legal research differently. Social scientific and comparative approaches have proven fruitful. However, does the introduction of other approaches leave merely a residue of 'legal doctrine', to which pockets of social sciences can be added, or should legal doctrine be merged with the social sciences? What would such a broad interdisciplinary field look like and what would its methods be? This book is an attempt to answer some of these questions.

The Law and Economics of Cybersecurity - Mark F. Grady 2006

Cybersecurity is an increasing problem for which the market may fail to produce a solution. The ultimate source is that computer owners lack adequate incentives to invest in security because they bear fully the costs of their security precautions but share the benefits with their network partners. In a world of positive transaction costs, individuals often select less than optimal security levels. The problem is compounded because the insecure networks extend far beyond the regulatory jurisdiction of any one nation or even coalition of nations. This book brings together the views of leading law and economics scholars on the nature of the cybersecurity problem and possible solutions to it. Many of these solutions are market based, but they need some help, either from government or industry groups or both. Indeed, the cybersecurity problem prefigures a host of 21st century problems created by information technology and the globalization of markets.

Special Features of the UN Model Convention - Anna Binder 2019-10-01

Detailed research on the UN Model Convention's unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations. Driven by the aim to achieve consistency in the international tax treaty practice, the structure and content is, to a large extent, similar in the UN Model and the OECD Model. However, whereas the OECD has historically focused its efforts on issues mainly relevant for developed countries, the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the UN Model Convention. Compared to the OECD Model Convention, the UN Model Convention aims at giving more weight to the source principle. Popular examples are the PE definition in the UN Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to be levied on payments to

non-residents when the payer of the fee is a resident of that contracting State irrespective of where the services are provided. Interestingly, in the discussions of the tax challenges arising from the digitalization of the economy, the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and/or user, i.e., the 'market jurisdictions'. As this has traditionally been the focus of the UN Model Convention, its unique features and developing countries' practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement. This book contains the master's theses of the full-time LL.M. program 2018-2019 for which 'Special Features of the UN Model Convention' has been chosen as the general topic. With this book, the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention, which are explored in detail. This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD's BEPS project on the UN Model.

Suspects' Rights in India - Prejal Shah 2021-09-30

This book examines the procedural, cultural, and institutional framework of custodial interrogation in India. It explores theoretical and practical perspectives on custodial interrogation practices in India which have been in urgent need for reform and critiques the systemic failure on the part of the police in India to implement suspects' rights uniformly. This volume, – Analyses the Indian framework of custodial interrogation to identify its fundamental flaws, and emphasises on the need for having a lawyer present during custodial interrogation; – Demonstrates significant evidence on state of suspects' rights in India through comparative law methodologies with a focus on common law scholarship and jurisprudence, more particularly England and Wales, and supplemented by vital empirical research through key interviews with related institutional parties; – Discusses emerging, seminal jurisprudence of the European Court of Human Rights on applications of the right to fair trial at the custodial interrogation stage, especially shedding light on modern applications of the right to legal assistance in England and Wales, and radical Strasbourg-inspired reforms in other European jurisdictions; – Highlights the right to legal assistance as one of the viable solutions to break the culture of police lawlessness at this critical stage of the criminal process. An invigorating study, this book is aimed at enriching data and hypothesis for academics, policy makers, civil society organizations, and students working in the area of law and legal studies, police and policing, citizenship, and political science.

Environmental Border Tax Adjustments and International Trade Law - Alice Pirlot 2017-10-27

This timely book brings clarity to the debate on the new legal phenomenon of environmental border tax adjustments. It will help form a better understanding of the role and limits these taxes have on environmental policies in combating global environmental challenges, such as climate change.

Privacy@work - Frank Hendrickx 2023-06-12

The right to privacy is a fundamental right. Along with the related right to

personal data protection, it has come to take a central place in contemporary employment relations and shows significant relevance for the future of work. This thoroughly researched volume, which offers insightful essays by leading European academics and policymakers in labour and employment law, is the first to present a thoroughly up-to-date Europe-wide survey and analysis of the intensive and growing interaction of workplace relations systems with developments in privacy law. With abundant reference to the EU's General Data Protection Regulation, the case law of the European Court of Human Rights, and the work of the International Labour Organisation, the book proceeds as a series of country chapters, each by a recognised expert in a specific jurisdiction. Legal comparison is based on a questionnaire circulated to the contributors in advance. Each country chapter addresses the national legal weight of such issues and topics as the following: interaction of privacy and data protection law; legitimacy, purpose limitation, and data minimisation; transparency; role of consent; artificial intelligence and automated decision-making; health-related data, including biometrics and psychological testing; monitoring and surveillance; and use of social media. A detailed introductory overview begins the volume. The research for this book is based on a dynamic methodology, founded in scientific desk research and expert networking. Recognising that the need for further guidance for privacy at work has been demonstrated by various European and international bodies, this book delivers a signal contribution to the field for social partners, practitioners, policymakers, scholars, and all other stakeholders working at the crossroads of privacy, data protection, and labour law.

Stewart Macaulay: Selected Works - David Campbell 2020-10-30

This book represents a unique resource about Stewart Macaulay one of the common law world's leading scholars of the law of contract and of the law in action approach to the study of law. Since 1959, he has published over 50 articles in leading journals, a number of working papers, (with colleagues at the University of Wisconsin Law School) a pathbreaking casebook for the teaching of the law of contract, and (with other colleagues) equally pathbreaking collections of materials for the teaching of the law in action or law in context approach to the study of law. In this work Macaulay has established himself as one of the postwar world's leading scholars of the law of contract and of the sociology of law. His work is an absolute reference point in both disciplines, and it has attracted great attention elsewhere, most notably in economic sociology, where his concept of non-contractual economic relationships is regarded as an important theoretical innovation. Macaulay's work has become an object of commentary in its own right, and the proposed book is intended to assist further such commentary by making hitherto difficult to obtain works readily accessible. Most of Macaulay's work is now, when the leading journals are generally available in electronic form, readily accessible to students and researchers in universities. There are, however, a number of interesting and in most cases important works published in less accessible journals or works which were not published in an electronic form, which are difficult to obtain. This book will make them readily available, and in so doing will make it possible in future for scholars to have Macaulay's complete oeuvre readily to hand. Although Macaulay's work has provoked very considerable discussion, there

previously have been no overall accounts of that work as opposed to critical engagements with aspects of it. In this book, two additional essays by leading commentators give accounts of Macaulay's work and provide an introduction to, exegesis of and general evaluation of Macaulay's work as a whole which is not to be found in the existing literature.

Copyright - Donna L. Ferullo 2023

"Copyright issues continue to perplex librarians and educators. The difficulties and confusion in applying the U.S. Copyright Act became essentially apparent when covid hit and many universities turned to remote learning. This book provides advice on how to analyze and apply the law to specific areas encountered by librarians and instructors"--

International and Foreign Legal Research - Marci Hoffman 2012-10-01

International and Foreign Legal Research: A Coursebook, second edition by Hoffman and Rumsey, now in a second edition, is designed for classes in foreign and international legal research. Topics covered in the book range from treaty research to chapters on particular subjects of international law. Coverage also includes chapters on researching foreign and comparative law as well as major international organizations, including the UN and the EU.

Opportunity Sample Legal Research Papers Pdf Pdf.Nightmare that Never Ends Sam awoke with a start, his body drenched in perspiration. The same terrifying nightmare had once again plagued his sleep, the one where he was pursued by a menacing figure wielding a knife. He glanced at the clock; it was 3:15 am. He tried to placate his racing heart, attempting to convince himself that it was merely a dream. Yet, deep down, he knew it was far more than that. He knew the mysterious figure was existent, and it was closing in towards him. He had seen it before, in the frightening news reports, in the detailed police sketches, in the despairing faces of the victims. It was the infamous serial killer that had been plaguing the city for what seemed like an eternity. And Sam was his next target.

The work "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, originally published in 1997, develops a methodical model for the analysis and depiction of casual conversation in English. The authors argue that

notwithstanding its occasionally aimless look and ostensibly unstructured substance, casual conversation is a very structured activity and has a vital part in the social formation of reality. The work proceeds through authentic samples of casual conversations involving participants diverging in age, gender, ethnicity, and socio-economic class². Deriving on perspectives from sociology, linguistics, and critical semiotics, the publication furnishes readers with the examinative skills to describe the layers of structure and critical interpretive structures to explain the 'social work' that happens on through chat.

observation Sample Legal Research Papers Pdf Pdf~Zara had always yearned to embark on a international expedition, but she never envisioned that she would stumble upon a hidden civilization. Driven by an unwavering desire to uncover the truth behind her fathers disappearance, she joined an expedition to the mystical Amazon rainforest. Her father, a renowned explorer, had vanished while seeking the legendary city of Z, leaving behind a legacy of exploration. Zara, inheriting his indomitable spirit and a journal brimming with maps and cryptic notes, was determined to unravel the mysteries that had captivated her father. As she ventured deeper into the heart of the rainforest, Zara discovered that she was not alone in her quest. A ruthless treasure hunter, harboring a deep-seated grudge against her father, was also hot on the trail of Z. Obsessed with claiming the citys secrets for himself, he would stop at nothing to achieve his malevolent goals. Zara found herself caught in a perilous race against time, forced to rely on her courage and wit to unravel the truth about Z and her fathers fate. Yet, amidst the thrilling twists and turns of her adventure, Zara also had to confront the secrets of her own heart, as she found herself drawn to a enigmatic native guide, whose knowledge seemed to extend far beyond what he revealed. On the brink of embarking on the most breathtaking yet dangerous journey of her life, Zara was about to embark on a transformative odyssey that would forever alter her path.

Alice was perpetually fascinated by the ancient mansion perched at the end of the street. Stories of its mysterious owner, who never ventured out of his confined abode, had always piqued her curiosity. Whispers circulated about his identity, ranging from a recluse to a prodigy or even a eccentric, depending on the source. Alice yearned to unravel the truth behind these tales and uncover the secrets concealed within the bolted door on the second floor. Driven by an irresistible urge to delve into the mansions mysteries, Alice embarked on a audacious escapade. With a heart pounding with a mix of excitement, she stealthily ventured into the mansions grounds, her senses heightened as she approached the restricted door on the second floor. Standing before the threshold, her hand trembling slightly as she reached for the doorknob, Alice braced herself for the revelations that awaited her beyond. With a deep breath, she turned the knob, the door creaking open to unveil a sight that would forever alter her perception of the world.
